# General Information

## Introduction

This is the 12th edition of the Trident Technical College *Fact Book*. It is dedicated to serving the frequent information needs and interests of students, faculty, staff, alumni and the public.

This publication offers relevant information on principal characteristics and strengths of the college. The content is based upon the results of readership needs surveys.

Your enthusiastic reactions to past issues of the *Fact Book* are appreciated, and you are encouraged to offer suggestions for improvement of future issues. Response to the *Fact Book* demonstrates its many applications in the shared management, administrative and planning activities of TTC.

## Vision Statement

TTC's vision is to be a leader among two-year colleges in providing relevant educational programs and services in a highly technical and competitive global environment.

## Mission of Trident Technical College

Trident Technical College is a public, two-year, multicampus institution which provides quality education and promotes economic development in Berkeley, Charleston and Dorchester counties. TTC is a member of the State Board for Technical and Comprehensive Education system. As an open-door institution of higher education, the college provides lifelong learning opportunities for

traditional and nontraditional students. These

opportunities enhance the economic, social and cultural life of the community. Accessible and responsive to the needs of this multicultural community, TTC prepares students for a rapidly changing global environment.

Each semester 8,000 to 10,000 credit students enroll in programs leading to college transfer associate degrees and technical associate degrees, diplomas and certificates. The curriculum includes programs in Arts and Sciences; Business Technology; Industrial and Engineering Technology; Health Sciences; Nursing; Public Service; Hospitality, Tourism, and Culinary Arts; and Community, Family, and Child Services. To foster student success, TTC provides developmental education and comprehensive student services.

Using communication and problem-solving skills, graduates draw on knowledge from a broad range of disciplines to make decisions and perform tasks, working as individuals and as team members.

As a state and national resource, TTC provides continuing education courses, customized education and training for business, industry and government, and a variety of activities and services, including facilities for Special Schools employment training programs.

**The College pursues its mission guided by the following institutional values.**

- Lifelong learning and success for all students, faculty and staff.
- Quality educational programs and services that are affordable, accessible, flexible and responsive to community needs.
- Educational innovation and leadership, especially in the integration of technology and international awareness.
- The worth and dignity of each individual.
- The rich cultural and ethnic diversity of our students, faculty and staff.
- A faculty and staff dedicated and committed to serving student and community needs.
- The academic freedom essential for teaching and learning; the self-discipline and ethics essential for all professional activities and relationships.
- A management philosophy defined by high ethical standards, open communication, teamwork, employee empowerment, and continual assessment and improvement of our processes and products.
- Strict accountability for the effective and efficient use of all resources.
- Partnerships with businesses, industries, community organizations and other educational/governmental institutions.
- An environment that is safe and attractive as well as conducive to wellness and productivity.

**Goals**

The following goals were approved for TTC by the Area Commission:

- To provide world-class education and promote development by offering high quality credit and continuing education programs which are consistent with the college's assessment of the service area.
- To provide programs and services which promote student success and enhance the quality of life for constituents.
- To continuously improve existing management systems and organizational structures and to develop new systems and structures where necessary.
- To effectively communicate with the college community as well as external constituencies, agencies, and legislative bodies.
- To recruit and employ a diverse, highly qualified faculty and staff, to provide competitive salaries, and to provide professional growth and development opportunities.
- To develop, maintain, and enhance physical facilities; to acquire state-of-the-art equipment; and to provide technical support services for the college.
- To acquire adequate financial resources, to allocate them effectively, and to ensure strict accountability by integrating principles of continuous quality improvement throughout the operation of the college.

## The History of Trident Technical College

In 1964, the Berkeley-Charleston-Dorchester Technical Education Center was established as part of a statewide system founded by Governor Ernest F. Hollings to meet the education and training needs of South Carolina. The center opened with two buildings and 226 students.

In 1973, to accommodate its increasing growth, the center merged with Palmer College, a private business college in downtown Charleston. The combined Palmer College and B-C-D Technical Education Center became Trident Technical College.

In 1982, the college built its Berkeley Campus near Moncks Corner. Four years later, the Palmer Campus moved from its cramped location to its current renovated peninsula site.

To accommodate future growth, in 1993 the college purchased 117 acres of land next to its Main Campus. The following year, the college purchased 30 acres of land and buildings adjacent to its Main Campus. In 1997, the college opened its Complex for Industrial and Economic Development on this 30-acre site.

TTC offers over 100 programs of study in a variety of technical and career areas, plus transfer programs for those who want to continue their education at a four-year college.

## ACCREDITATION

Trident Technical College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone 404-679-4501) to award associate degrees, diplomas and certificates. Programmatic accreditations, approvals and licensures include:

# Continuing Education and Economic Development

114

115

## CONTINUING EDUCATION AND ECONOMIC DEVELOPMENT PROGRAMS

The key element in the mission of the Division of Continuing Education and Economic Development is economic development through customized, company-sponsored training, public occupational upgrading and professional development programs. The Division delivers its training and consulting services through four functional units: the Department of Distance Learning and Computer Training, the Department of Industrial Training and Apprenticeship, the Department of Professional and Vocational Training, and the Department of Manufacturing Training.

The training activities take many formats, from one-day programs to multi-year apprenticeship training and include customized in-depth consulting services. Through these programs individuals can keep up-to-date in their fields, embark on new career paths or learn for the joy of personal enrichment. Business, industrial, health care, service, and governmental organizations receive training and consulting in order to enhance productivity and competitiveness.

Capabilities at TTC's Complex for Industrial and Economic Development include the technologies of satellite downlink and two-way interactive videoconferencing. These technologies provide new, worldwide links and channels for training, education, and business vendors. Their use can improve an organization's response time to market dynamics and economic changes. Staying "connected" and current no longer requires extended travel, flight delays and hotel stays when the distance technology allows an individual to "be there" electronically.

Programs fall into two broad categories: public and contractual. Public programs consist of courses and seminars that are planned, scheduled and offered to meet the occupational upgrading and personal enrichment demands of the general public. They are advertised through several media and are available at the college's three campus locations and off campus. Participants pay individual registration fees to attend. Business, industry and governmental agencies often sponsor employees. Contractual programs are provided at the specific request of a company or agency. These programs are usually customized for content and schedule and often are delivered at the company or agency site.

Continuing Education Units are awarded for qualifying programs. The CEU is a nationally recognized measure of achievement in courses that do not carry regular academic credit. One CEU is awarded for 10 hours of instruction in a qualifying course. A permanent record of each student's CEUs earned is maintained at the college.

Continuing Education programs are delivered on or off campus and, increasingly, via distance learning media. In February 1997, the Division occupied the initial classroom building of the new Complex for Industrial and Economic Development, located at Main Campus. It includes three computer labs and ten training and conference rooms, many of which are equipped for uplink and downlink distance learning programs.

The Division's full-time staff and faculty members manage programs and assist college faculty and professional staff in all aspects of program planning and implementation.

Significant Division events of 1998-99 include:

- Produced 25,275 registrations, a 12.8% increase over 1997-98.
- Implemented automated 3<sup>rd</sup> Party billing system, culminating almost 3 years of process study and analysis.
- Implemented suggestion box to enhance customer service input.
- Hosted a French technical college student for a 2-month intensive internship.
- Negotiated and implemented a memorandum of agreement with Clemson University to receive via distance learning graduate engineering and baccalaureate nurseryman programs.
- Became the leading SBTCE continuing education distance learning deliverer (real estate, appraisal, building codes and child care).
- Offered over 150 courses via the Internet.
- Conducted successful Cyber Camp for students in grades 7-12.
- Conducted second annual Manufacturing Summer Camp, co-sponsored with local industries.
- Implemented Microsoft Office User Specialist certification via an 8-course sequence.
- Co-sponsored three multi-media courses with the SC Arts Commission and the City of North Charleston Cultural Affairs Office.

- The Manufacturing Opportunities Program (MOPS) won the 1998 South Carolina Association for Higher Continuing Education (SCAHCE) Best Collaborative Program Award.
- With the Charleston County Commissioners of Public Works, co-sponsored the first annual state-wide Water Meter School.
- Increase to 31 the number of local companies with approved Enterprise Zone Act (EZA) incentive training programs.
- Partnered with the Departments of Social Services in Charleston and Berkeley Counties to develop and implement a Customer Service Certification Program.
- With Santee Cooper, co-sponsored a diversity workshop for area human resource managers.
- Partnered with Bayer, Inc. to conduct a pilot course using the new national Emergency Medical Technician (EMT) registry testing procedures.
- Deanna Howard received the 1998 SCAHCE Outstanding Continuing Education Professional Award.
- Tim Fulford received the 1998 SCAHCE Outstanding Faculty Award.
- The ABC Child Care program remained the largest in the SBTCE system.
- Continued the partnership with the World Trade Center Charleston to offer three certificate programs; exporting, importing, and logistics.

D. Compensation of faculty	\$34,893	\$35,891	\$36,926
E. 1) % headcount faculty receiving rating of, satisfied	N/A	Yes	91%
2) % students satisfied with academic advising	N/A	Yes	78%
F. Community service	N/A	N/A	Yes
<b>3. Instructional Quality</b>			
A. 1) Average class size	24.1	23.0	22.0
2) FTE students per FTE faculty	18.5	18.0	17.8
B. Credit hours taught by faculty	237	223	271
C. Ratio of FT faculty to other FT employees (%)	45.5%	45.5%	46.2%
D. Accreditation of degree programs	80.0%	80.0%	80%
<b>4. Institutional Cooperation and Collaboration</b>			
A. Sharing and use of technology, etc.	N/A	N/A	Yes
B. Cooperation and collaboration with private industry	N/A	N/A	Yes

5. Administrative Efficiency		1996	1997	1998
A.	1) Administrative cost	17.3%	15.3%	14.8%
	2) Academic cost	61.3%	65.0%	65.2%
B.	Use of best management practices	N/A	N/A	100%
C.	Elimination of duplication and waste	N/A	N/A	Yes
D.	General overhead cost per FTE student	\$952	\$796	\$851
6. Entrance Requirements				
C.	Post-secondary non-academic achievement	N/A	N/A	N/A
D.	Priority on enrolling in-state students	93.8%	N/A	N/A
7. Graduates' Achievements				
A.	Graduation rate	16.5%	14.4%	12.8%
B.	Employment rate	N/A	N/A	Yes
C.	Employer feedback on graduates	N/A	N/A	Yes
D.	Scores on certification tests and exams	91.5%	91.1%	88.7%
E.	Graduates who continue their education	N/A	N/A	30%
F.	Credit hours earned of graduates	117.3%	115.1%	N/A
8. User-Friendliness of Institution				
A.	Transferability of credits	N/A	90.0%	100%
B.	Continuing education programs	N/A	N/A	40,600
C.	1) Percentage of other race students	22.1%	21.8%	23.3%
	2) Comparative retention rate	86.9%	88.3%	90.3%
	a. Retention rate of other race	50.2%	47.4%	50.3%
	b. Retention rate of non-other race	57.8%	53.7%	55.7%
